

new products 2015 price of ZIGBEE module /cc2420 cheap zigbee rf modules(with SMA antenna) alibaba china

Quick Details

- Package: LGA
- Model Number: CC2420
- Type: Voltage Regulator
- Brand Name: hkshanghai
- Place of Origin: Guangdong, China (Mainland)
- data rates up to 250kbps: chip rate of 2Mchips/s3
- high receiving sensitivity: -95dbm
- 4 industrial control: wireless sensor networks
- low-power RX: 18.8mA
- Service: fast delivery
- Verification: CE FCC
- Operating Temperature: -5 °C ~ 80 °C
- Dissipation Power: 25W (T=75°C)
- Application: Alarm
- Supply Voltage: 5V ~ 12V

Packaging & Delivery

Packaging Details: Normal Box for price of ZIGBEE module

Delivery Detail: 5-7 Days

price of ZIGBEE module

Product Introduction

HFZ-CC2420EM series modules are zigbee module, using the Texas Instruments (TI) ZigBee radio chip CC2420, support the ZigBee protocol stack. The series zigbee module via SPI interface easily with the 8-bit or 16-bit MCU is connected to provide cost-effective, high-profile flexible ZigBee solution.

Module Features

1, the working frequency band: 2.400 ~ 2.4835GHz
2, data rates up to 250kbps, chip rate of 2Mchips/s
3, output power programmable control (-25.2dbm ~ 0dbm)
4, high receiving sensitivity (-95dbm)
5, low-power RX: 18.8mA, TX: 17.4mA
6, provides matching the development, demonstration kit
7, and MCU interface: 12Pin (4-wire SPI interface)
8, the module dimensions: 38.2 × 38.2mm
